Log & Event Manager Protects Medium Enterprise Credit Union From Malware

"Log & Event Manager is excellent at monitoring and picking up events as well as collecting logs. We use it extensively at our Credit Union and would highly recommend it to others."

"LEM helped us detect a major malware problem on one of company PCs. We were able to quickly act on it thanks to the features in LEM. "

"LEM offered many more features compared to other alternatives. It also provided ease of use and a high level of customization."

Challenges

Data security is the most critical security area to this credit union.

Demonstrates **NCUA** regulatory compliance requirements with *SolarWinds Log & Event Manager*.

Use Case

- According to this financial services company, the three most critical features that will help detect and respond to threats are:
    - Centralized real-time event detection, correlation & notifications
    - File integrity monitoring
    - Managing security of USB devices

Results

Log & Event Manager helps the financial services company:

- Detect > 500 security incidents, every month.
- Their favorite feature in Log & Event Manager is *automated alerts and response to threats.*

The credit union company now feels more prepared to deal with security and compliance issues with LEM.
