

Case Study: Financial Services Company (UK) Replaces Ipswitch MOVEit with Serv-U

“Self-hosted FTP server software is much more secure and reliable for file transfer than cloud-based/SaaS services and FTP freeware.”

Challenges

- Used **Ipswitch MOVEit** as a file transfer solution before purchasing Serv-U.
- IT challenges faced before purchasing Serv-U:
 - Inability to securely encrypt and protect file transfer data
 - Lack of centralized file transfer administration & control
 - Non-IT-approved file transfer services used by employees
 - The complexity of using hardware (CD, hard disks, USB, etc.)
 - Inability to transfer large files over email or network share
 - Difficulty in tracking, logging, and managing file transfers

Use Case

- Has 1 to 50 users (both internally and externally) that use Serv-U.
- Purchased **Serv-U Managed File Transfer (MFT) Server**.
- Uses Serv-U to:
 - Centralize file transfers within the organization
 - Secure B2B file transfer with external parties
 - Meet compliance requirements
- Decided to buy Serv-U because of its:
 - Affordable cost
 - Robust security for file transfer
 - Ease of use and configuration

Results

- Benefits realized as a result of using Serv-U MFT Server:
 - Enhanced security and data protection
 - Increased visibility and control of file transfers
 - Improved compliance with security policies
 - Prevented data loss during file transfer
 - Improved administration and governance of file transfers
 - Cost and time savings
 - Improved productivity

About Serv-U

SolarWinds delivers powerful, affordable, and easy-to-use IT security tools to help you monitor, patch, and eliminate security threats and vulnerabilities across your network. Get fast and easy compliance reporting for HIPAA, PCI, SOX, ISO, and more.
