

Case Study: Bank extends WSUS capabilities with Patch Manager

“Patch Manager provided a more integrated approach to patching Windows and Third Party Applications.”

Challenges

- Inconsistent **deployment of timely patch updates** when vulnerabilities arise out of potentially unwanted programs, malware and newer threats.
- Used Microsoft WSUS prior to purchasing SolarWinds **Patch Manager**

Use Case

With Patch Manager, a Medium Enterprise Banking Company:

- Manages 251-1,000 servers
- Pushes out 21 – 50 patches per month
- Decided to purchase SolarWinds Patch Manager because of its features.

Results

- Patch Manager helps a Medium Enterprise Banking Company:
 - To test and deploy patches without affecting business/IT productivity
- Save 11-25 hours each month with Patch Manager.

About SolarWinds Patch Manager
