

eHealth Technologies Meets Regulatory Compliance Requirements With Log & Event Manager

After using Log & Event Manager, eHealth Technologies “Have not had any major security incidents within our organization.”

“There really isn’t any other software out there that covers the wide berth of logging & event management collections.”

“LEM contains the most features and best support options that other providers simply can’t match.”

Challenges

Data security is the most critical security area for eHealth Technologies

- With SolarWinds Log & Event Manager, eHealth Technologies demonstrates **HIPAA** and **SOX** compliance regulations.

Use Case

- eHealth Technologies believes that the three most critical features that will help detect and respond to threats are:
 - Centralized real-time event detection, correlation & notifications
 - File integrity monitoring
 - Single pane of glass across performance monitoring and security tools

Results

With Log & Event Manager, eHealth Technologies:

- Detects **51 – 100** security incidents every month.
- Reduced network/business downtime by 10% – 20%
- Their favorite feature is **in-depth search and log analysis**.
- After deploying Log & Event Manager, eHealth Technologies now feels more prepared to deal with security and compliance issues.

About SolarWinds Log & Event Manager

SolarWinds delivers powerful, affordable, and easy-to-use IT security tools to help you monitor, patch, and eliminate security threats and vulnerabilities across your network. Get fast and easy compliance reporting for HIPAA, PCI, SOX, ISO, and more.
