solarwinds

Ajman e-Government Replaces ManageEngine with SolarWinds Server & Application Monitor

> " "[SolarWinds Server & Application Monitor] is a very good software."

Challenges

- IT administration / management challenges that prompted you to purchase SolarWinds Server & Application Monitor:
  - Need for greater insight into performance metrics for troubleshooting
- Purchased SolarWinds Server & Application Monitor to replace ManageEngine Applications Manager.

Use Case

- Purchased Server & Application Monitor for the following key features:
  - Its out-of-the-box monitoring templates for multi-vendor applications
- Applications primarily monitored using Server & Application Monitor:
  - Windows

Results

- **Identifies and troubleshoots application issues 80 – 100% faster** after deploying Server & Application Monitor.
- **Realized ROI in less than a month** after buying Server & Application Monitor.
- Saw a **> 80% decline in application and server downtime** since they started using Server & Application Monitor.
