

MMM Group Limited Benefits from ApplInsight Templates in Server & Application Monitor

“

I am a big fan of the ApplInsight templates, and appreciate having someone building something that makes my job easier.”

“We had an incident with a web server certificate that wasn’t automatically renewing. ApplInsight for IIS gave us the time needed to correct the problem before it became an issue.”

“ApplInsight templates are easy to configure and install. Without the ApplInsight, I would miss key components in creating my own monitors.”

Challenges

- IT administration / management challenges that prompted you to purchase SolarWinds Server & Application Monitor:
 - Lack of visibility into application health and availability
 - Needed greater insight into performance metrics for troubleshooting
 - Too much manual effort and time spent on finding the root-cause of issues
- Purchased SolarWinds Server & Application Monitor to replace Level Platforms.

Use Case

- Purchased Server & Application Monitor for the following key features:
 - Deep application performance monitoring using ApplInsight™ dashboard
 - Out-of-the-box monitoring templates for multi-vendor applications
- Applications primarily monitored using Server & Application Monitor:
 - Microsoft Exchange Server
 - Windows
 - IIS
 - SQL Server
 - Active Directory

Results

- **Identifies and troubleshoots application issues 20-40% faster** after deploying Server & Application Monitor.
- Saw a **10-20% decline in application and server downtime** since they started using Server & Application Monitor.
- Realized ROI in 9 -12 months after buying Server & Application Monitor.

About SolarWinds Server & Application Monitor
