

Duane Morris LLP Replaces Microsoft SCOM with SolarWinds Server & Application Monitor

Challenges

- Used Microsoft® System Center Operations Manager (SCOM) before replacing it with SolarWinds® Server & Application Monitor (SAM)

Use Case

- Addressed the following challenges with SolarWinds SAM:
 - Mapping relationships across application, server, and virtual infrastructure
 - IIS performance/website outages
 - Monitoring WorkSite
- Uses SolarWinds SAM extensively to monitor applications like WorkSite and Prospereware

Results

- Able to identify and troubleshoot application performance issues 80 – 100% faster with SAM
- Saving \$50,000 – \$100,000 on an annual basis on labor, software costs, maintenance costs, and admin costs after started using SolarWinds SAM versus Microsoft SCOM
- Reduced downtime by 40 – 60% since using SolarWinds SAM

About SolarWinds Server & Application Monitor

SolarWinds delivers powerful, affordable, and easy-to-use application, server, virtualization and storage monitoring software to help you get complete visibility of your systems infrastructure, and stay ahead of downtime and performance issues.
