

SolarWinds Server & Application Monitor Used for Capacity Planning & Resource Budgeting

4.5/5 Stars

Please describe which feature of Server & Application Monitor has been the most useful to you, and why?

“ We use Server & Application Monitor for alerting, trending reports, capacity planning, and budgeting for additional resources.

What would you say to recommend Server & Application Monitor to someone who is considering purchasing an application and server monitoring solution?

“ We use it. It's an out standing product with a full feature set that we haven't even touched the surface of, and are already realizing its value.
