

A Corporate Communications/PR at a small business computer services company would be very likely to recommend The Skills Connection for this reason:

This is the second time I have worked with The Skills Connection, and once again I was very impressed with the quality of the advice and the thoroughness of the work. I am positive we would not have fared as well as we did in the Gartner Magic Quadrant without their assistance. They were a tremendous partner throughout the project and always offered very helpful advice. I would absolutely work with them again in the future.
