

## Rating The Skills Connection

5/5 Stars

How our organization uses The Skills Connection:

We utilized The Skills Connection to prepare an Gartner Magic Quadrant (MQ) briefing deck to move our dot. We also utilized them to discuss messaging with the analysts when we had a CEO change and an impending lawsuit with an industry giant and one of our technology partners mid-way through the MQ process.

Would you recommend The Skills Connection?

We thought we were going to just have a great briefing deck. What surprised us and also exceeded our expectations was the breadth of service and process around the preparation of the inclusion package, right down to how the document should be presented/formatted, the references and the Critical Capabilities report. All of those components made a significant difference. Without them we likely would have repeated the same mistakes made the prior year and quite honestly, I'm convinced without them we likely could have risked even lowering our position instead of improving it.
