How our organization uses The Skills Connection:

To help us clarify our value proposition for the analyst community and help us improve our Gartner MQ standing.

Would you recommend The Skills Connection?

Yes. They helped coordinate our team's internal responses in order to ensure that we answered every question thoroughly. We had a large internal team responsible for different areas of the MQ, so that consistency was incredibly valuable. It was also helpful that The Skills Connection was available to answer questions from other team members that might not have been as familiar with the Magic Quadrant or analyst relations.
