

# Why People Say They Recommend The Skills Connection

A Product Marketer of a small business computer software company is very likely to recommend The Skills Connection for the following reason:

As the head of marketing at a data security software company, I was very pleased with the insight and guidance provided to us by The Skills Connection in respect of our Gartner Magic Quadrant process. Their collective experience and expertise as former analysts was impressive and evident time and again in our engagement. I can't think of anyone better to get analyst relations advice from than a strong senior team of former analysts! Best of all, they are great folks to work with and quickly became a liked and trusted extension of the team.
