

State & Local Government

Introduction

This case study of a state & local government is based on an August 2020 survey of Tripwire customers by TechValidate, a 3rd-party research service. The profiled organization asked to have their name blinded to protect their confidentiality.

“Tripwire is a strong partner for managing cyber risks across IT and OT environments”

Challenges

The business challenges that led the profiled organization to evaluate and ultimately select Tripwire:

- Difficulty meeting/maintaining compliance

Use Case

The key features and functionalities of Tripwire that the surveyed organization uses:

- Secure configuration management
- Audit-friendly reporting
- Vulnerability assessment

Results

The surveyed organization achieved the following results with Tripwire:

- Improved visibility of network and assets
- Time saved in meeting compliance requirements & audits

Organization Profile

The organization featured in this case study asked to have its name publicly blinded because publicly endorsing vendors is against their policies.

TechValidate stands behind the authenticity of this data.
